Final EPA-VA James River Proposed Implementation Schedule Subject:

Bob and Jon - Attached is the final Staged Implementation Strategy for the VA James River. After a flurry of activity over the last few days, it has received final approval by EPA and VA. Our Virginia friends are very appreciative.

Please incorporate into the TMDL as appropriate. My suggestion would be to find a spot to cut and past the entire strategy, but I'll leave that call up to you all.

Many thanks to Rob Wood who did much of the lifting on this over the past few days to get it across the finish line.

Rob - Please forward to others as appropriate.

Thanks...jc

Thanks Al. We have accepted the deletion and your date changes. Please find attached a proposed final strategy. If acceptable after your final review, please reply as such and we begin the process of building the strategy into the final TMD document.

Thanks for the quick work.

Subj RE: USE THIS VERSION - VA James Proposed Implementation Schedule

ect:

## Jeff,

Overall the version you sent looks good. The attached includes a few edits......mainly revising the dates to January 1 which reflects the start of each compliance year......also, suggest omitting a phrase under the first bullet for clarity and it is not needed.

Thanks for all your help with this.

Scratch that...use the attached version. Earlier one had a few typos.

Thanks...jc

 ${\sf Subj\,VA\,\,James\,\,Proposed\,\,Implementation\,\,Schedule}$ 

ect:

Anthony and David - Attached is a proposed final version of the Staged Implementation Approach for the James River. My apologies for this coming later than I had hoped, but we wanted to make sure that all necessary eyes on our end had a chance to look it over and provide comments. I owe Rob Wood a beer (or 3) as he has done most of the lifting to get it to this point.

I believe the attached incorporates all of the components contained in the last version AI sent us (we used it as the template for any additional revisions). Given that time is running short, I hope that we are very close to finalizing this doc. The final version will then be handed off to Jon Capacasa, Bob Koroncai, and others to determine the best process for incorporating into the TMDL. In addition, I want to make sure that we have a final email exchange that articulates that both EPA and VA have agreed to the approach.

Let me know at your earliest convenience if you agree with the approach we have proposed. I will make myself available tomorrow as needed to discuss.

Thanks...jc
